### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The prior art of record does not disclose or suggest the instant invention as set forth in the independent claims. The instant invention requires a housing, a compass and a magnetic shield around at least a portion of the compass. This combination is not suggested or disclosed by the prior art of record.

Furthermore, although magnetic shields are old and well-known, to use such a shield with a compass would normally be counter-intuitive. Most compasses are used to determine the Earth's magnetic field. The instant invention uses the shield to isolate the compass-based indicator from the Earth's magnetic field. Therefore, to use such a shield in the manner as claimed would destroy the purpose of most compasses.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
